### THE ONTARIO TEA CORPORATION, TORONTO

**Read What We Offer.** To advertise our Teas and Coffees, and establish a trade direct with the consumers at once in Canada, we have decided to give Electro plated Teaspoons and Watches away Free of Cost with our Teas, hereafter, and as long as our stock of specimens.

Each person sent of a Five Pound Caddie of our Teas, any kind—Young Hyson, Congee, Assam, Cunpoover, Japan, uncolored Japan, Etc., and ordering not less than 50 per cent. upwards will have enclosed in their caddie a half dozen of these Teaspoons. Or you can have with a 5lb. Caddie a powder dozen Dinner or Dessert Electro plated spoons.

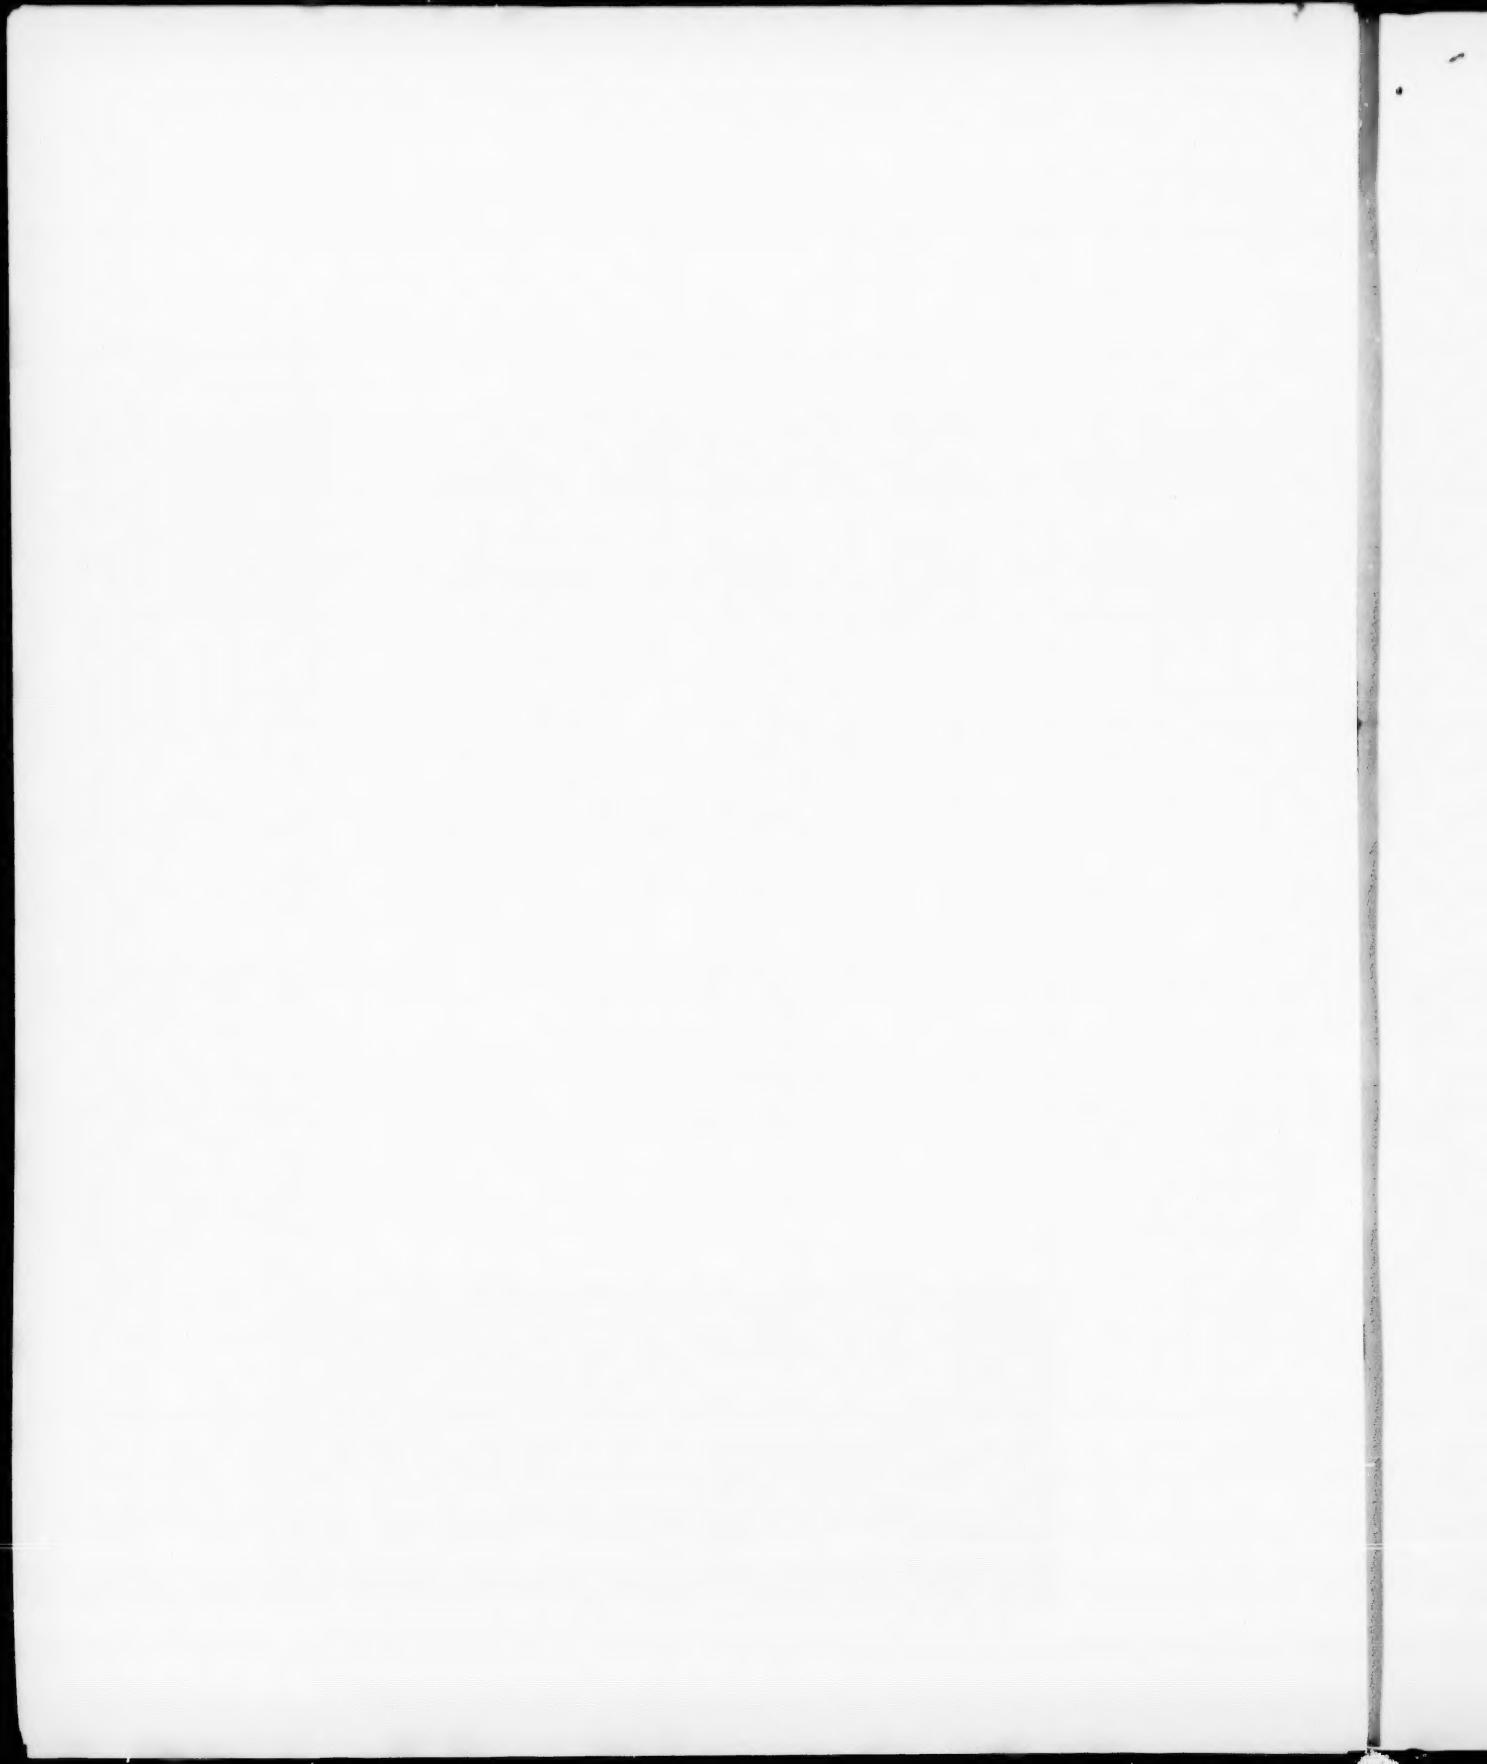

We warrant our Teas and Coffees to be pure and unadulterated, and fully 20 percent. less per lb. than can be purchased elsewhere. We are direct importers, and give consumers the advantage by selling them pure Teas and Coffees at reduced prices and giving them electro plated Teaspoons and Watches, nearly as an advertisement. Give a trial order and be convinced that at all we represent is carried out. Also to make the instruments more interesting and surpass all rivals, we have decided to give away in the next three months 2 Gold and 20 Silver Ladies' Watches, these watches are excellent time keepers, splendid values, and will give great satisfaction. The Gold Watches are sold retail at \$10, and the Silver Watches at \$1 each. Our system of giving away these watches is very simple, for to purchase one of our Teas, with each Pot addition of Tea, powder added sent out we enclose in two of the Caddies one Gold or one Silver Watch. If you do not get the watch in the first Caddie, may be you will in the next, but in any case you get value in your Teas, and kiss the Electro plated Spoons free.

**Importance.** It is fair to suppose some may think it would be impossible to give away so much. Others may say it is a humbug, and that we will not do it. We agree. To all such we would say, The Ontario Tea Corporation is a perfectly reliable concern. What we offer we give and you can rely upon it. It would not be to our interest to do differently. Give us a trial and you will be satisfied.
